

COLLEGES

New England Tech
WEST PALM BEACH

In 2000, RGA designed a bold new image for New England Tech's West Palm Beach campus. The building was designed to make use of high efficiency HVAC, significantly cutting the cost of operations while improving the internal environment. It currently houses the Florida Culinary Institute.

HCC
TAMPA

This project involves the renovation of a 1000 square foot classroom. The job included the demolition of existing fixtures. Six new workstations, a demonstration table and open shelves were installed, as well as audio-visual resources.

St. Leo University
ST. LEO

Reliance Design-Build renovated on Advanced Chemistry Lab and General Chemistry Lab at St. Leo University. The project kicked off with the removal of three old, non-operable, fume hoods, which were replaced with nine brand new hoods, including 2 ADA Accessible neighborhoods. Each classroom received new flooring, ceiling tiles, and custom cabinetry and was updated with all the modern amenities.
